ENTS:

Minute walk from Main st.  
s, and, particularly good  
suits to sell.

But the wonder of the  
"Unlabeled Shirt" is our 90  
CENT production—New York  
mills, 2200-lin bosoms,  
cut in and backed with but-  
ter's linen, reinforced pack and  
profit, gilled seams, continuous  
stays, and in total everything  
conducive to "longevity," in a  
shirt, durability and neatness.

There are many points we  
would like to dwell upon, had  
we time and space, but one  
we cannot pass is our depart-  
ment of Boys and Children's Cloth-  
ing. The ladies of Helena will  
tell you where to find the best  
assortment, and any one who  
speaks to will tell you that for a  
tasty, nobby garment, no one  
in Montana can show you one  
half the styles or show as many  
novelties as are on our counters.

Don't fail to see them, espe-  
cially the lines of Kilts and Jer-  
seys; several shades, in ages  
from 2-12 to 10. It is our aim  
this season to capture the trade  
in the fall, from the cheapest to  
the finest grades. We show a line  
of good wash suitings as low  
as \$1.75, and have them as fine  
as \$2.50 for the youngsters, who  
in our line of Miller Hats is in  
store.

We have been receiving from  
five to eight cases a day for the  
last two weeks, and none can  
compare with the line of suit-  
ings we show—a line of Fash-  
ionable Tailor-made clothing  
that "no xox" out of the  
merchant tailoring. Every gar-  
ment made by a crack tailor,  
trimmed with the best material,  
and if you want to try one we  
guarantee you to give a suit  
for \$25 as a merchant tailor will  
sell you, for \$50. As a friendly  
tip, we say give them a trial.

In a week's time we hope to  
announce our stock all in, and  
then all who have not called  
will be guilty of a great injus-  
tice to themselves if they do  
not overlook our stock when  
they are in purchase.

## OF SPECIAL IMPORTANCE

Mineral Claims in Montana.

HELENA, MONT., Sept. 18, 1889.

Certain very recent rulings of the  
General Land office at Washington upon  
recently made by corporations or indi-  
viduals, make it extremely probable that  
the majority of such claims, for which  
applications for patent are now pend-  
ing in the U. S. DEPT. OF THE INTERIOR FOR SUP-  
PLEMENTARY EVIDENCE.

It is certainly wise precaution to an-  
ticipate a probable and to the issue  
of a patent by a careful re-examination  
of the proofs furnished, in order  
that such evidence, if found wanting,  
may be at once supplied.

For many examinations and the preparation  
of all papers needed in mineral  
claims for many years of recent service  
in the General Land Office give the special  
advantage.

Respectfully,  
J. H. NELSON,  
Land and Mining Attorney,  
Room 8, Atlas Building.

## THE TRIAL OF IVES.

Some Facts Brought Out Which May Help  
the Jury.

NEW YORK, Sept. 18.—Ives was again  
early in court this morning; the lateness of  
the season last night did not seem to have  
any way interfered with him. The first  
witness was Henry McGowan, of the firm  
of Helmer, McGowan & Co. June 22,  
1888, witness arranged a loan for Henry S.  
Ives & Co. for \$2,000 pounds sterling from  
Kael, Losh & Co. The collateral received  
was 2,500 shares of Cincinnati, Hamilton &  
Dayton stock. On cross examination  
witness said he was a witness for the  
prosecution in Cincinnati at the request of  
"Self Sage, who held a loan of witness'."

"Do you remember saying to Ives you  
would not be a witness for the defense?"  
"I don't remember."

"That Ives held over you yet, is it  
not?"

McGowan's partner, testified  
the loan was subsequently paid by Ives &  
Co.

Edward Burns, cashier of the American  
Exchange National bank, testified to the  
fact that the stock of the Cincinnati, Hamilton  
& Dayton bank, had been sold to the  
American Exchange National bank, to sur-  
rogate the old certificates for cancellation after  
the order of issue was issued to take their  
place.

## HEADING OFF A RIVAL.

Move of the Canadian Pacific to Keep Out  
the Northern Pacific.

WINNIPEG, Sept. 18.—The Canadian  
Pacific directors have apparently headed  
off the Northern Pacific by their en-  
deavors to reach the northwest territory.  
Negotiations have been in progress for  
some time between the two companies, and  
the Northern Pacific has been making  
attempts to secure the territory for the  
purchase of the latter line by the  
former. Now, however, has been received  
from the Canadian Pacific, a statement  
that the Canadian Pacific, have  
agreed to purchase the Canadian  
Pacific shareholders for the construction of  
the entire road.

## Railroad Stories Put to Rest.

BOSTON, Sept. 18.—President Adams, of  
the Union Pacific, has been the subject  
heard out of the newspapers of a Union  
Pacific scheme for building to Southern  
California. As to the story that the  
Union Pacific wished to secure an outlet to the  
Gulf via the Denver & Fort Worth road,  
Adams said: "I want to build a road  
from St. Louis to the Gulf, and I have nothing to say about  
it."

Adams said that the Union Pacific  
was not interested in the project, and  
that the project was not a part of the  
Union Pacific's plans.

## THE ISSUE MADE.

Wool Manufacturers Demand of the  
Republicans an Immediate  
Revision of the Tariff.

The Duty Must be Taken Off Wool or  
Increased On the Manufac-  
tured Article.

An Emphatic Protest Against Making the  
Wool Interest the Foot Ball  
of Politics.

Boston, Sept. 18.—Before the wool  
manufacturers adjourned, resolutions  
were adopted declaring the forty-  
seventh congress reduced the specific  
duties upon the manufacture of  
goods to far beyond the reduction of duty  
on wool as to decrier their compensatory  
character, causing an increasing of the im-  
portations of certain goods and to flood the  
market that the woolen manufacturers of  
the United States should occupy; that the  
abolition of the system of duties on wool  
of the tariff in which there shall in every  
instance be placed upon the manufactured  
product the full amount of specific duty  
necessary to compensate whatever rate the  
republican policy may require to be im-  
posed upon raw wool. The resolutions  
further provided that the woolen manu-  
facturers of the United States should occupy  
the duty as to decrier their compensatory  
character, causing an increasing of the im-  
portations of certain goods and to flood the  
market that the woolen manufacturers of  
the United States should occupy; that the
